About Luck Companies

luckcompanies.com

Through three generations of family leadership, Luck Companies has been building strong communities for nearly 100 years. Our three operating units, Luck Stone, Luck Ecosystems and Luck Real Estate Ventures make the products that serve as the foundation for the bridges, roads and buildings that keep our economy moving and protect our environment.

Driven by our values of integrity, commitment, leadership and creativity, we believe in providing our associates with the tools and support to perform and lead at their best so they can ignite the potential in themselves and others. Our company is a community of people, utilizing the power of values and customer inspired relationships to redefine what's possible for an industry and make a positive and enduring impact.

With 24 operating locations and nearly 700 associates, Luck Companies is headquartered in Richmond, Virginia, where it was founded by Charles Luck, Jr. in 1923. Charlie Luck IV leads the company today.

About Luck Stone

luckstone.com

Luck Stone is the nation's largest family owned and operated producer of crushed stone, sand and gravel. A responsive and creative partner to the construction, civil engineering and environmental industries, Luck Stone provides consistent, quality aggregate materials and services that serve as the foundation of roads, bridges and buildings. The materials we deliver are only the start of our commitment, which goes far beyond stone. Our people contribute to our customers' success through partnerships built on simplicity and service. We continually innovate to find value for our customers' operations and ensure stewardship of the land. Our vision is that we will positively impact the Luck Stone community by building value inspired by our customers.

Luck Stone offers more than 75 crushed stone products available in a variety of grades, colors, sizes and gradations. To learn more, visit www.luckstone.com/products.

With 21 locations across Virginia and North Carolina, Luck Stone remains the largest business of Luck Companies. Luck Stone is led by John LeGore, President.

About Luck Ecosystems

luckecosystems.com

Luck Ecosystems transforms raw materials into environmental performance products to optimize sports playing field surfaces, support plant growth, filter storm water, and protect the land and shore. What began as a small grassroots effort to reduce waste at quarry sites has transformed into a purpose-driven business with ambitious goals to improve the environment. Luck Ecosystems offers customers a range of solutions to manage the effects of storm water runoff, from the only horticultural growing material registered with the Virginia Department of Agriculture and Consumer Services to professional-grade media for golf courses and baseball fields. Our high-quality soil blends provide the underlying foundation of a more sustainable ecosystem and rewarding sports experience.

Luck Ecosystems' product offerings include:

Rainscape™ Stormwater Management: Promoting a healthier environment with engineered media to keep waterways more naturally pollutant-free and restore stream beds.

GreenScience™ Growing Media: Enhancing the outdoor experience with earth-friendly, effective soil mixtures that support plant life in a more natural way.

CourseScience™ Golf Media: Enabling the perfect approach with a wide range of performance-driven material to optimize course surfaces.

FieldGem™ Ballfield Mix: Fueling the power of play with advanced soil products to ease field maintenance and enhance player safety.

With production locations across Virginia, Luck Ecosystems is the industry leader in scientifically-based environmental performance products. Luck Ecosystems is led by Nate Salatin, General Manager.

About the Luck Companies Foundation

Luck Companies gives back to our community through local philanthropy, matching associate giving and grants from the Luck Companies Foundation.

In addition, the Luck Companies Foundation partners with non-profits to lead work that results in long-term positive impact in our local communities. We focus in two main areas — **Values Based Leadership** and **Environmental Stewardship**.

About Luck Real Estate Ventures

luckrealestateventures.com

Luck Real Estate Ventures specializes in the development of industrial and commercial land. Our vision is to impact economic growth through industrial real estate ventures. With offerings in industrial, commercial and land for development from Hampton Roads to central and northern Virginia, Luck Real Estate Ventures' extensive property holdings are primed for profitable development.

We care deeply about our communities, and work closely with partners to realize the full economic potential of our properties, carefully managing each project to affect positive change in the community. Our approach is strategic, sustainable and ultimately unlocks greater social and economic benefit.

Headquartered in Richmond, Luck Real Estate Ventures was founded in 1998. Luck Real Estate Ventures is led by Ben Thompson, Director.

About Luck Companies

Headquartered just outside of Richmond, Virginia
in Manakin-Sabot (Goochland County)

1923

The year Charles Luck, Jr. founded Sunnyside Granite,
known today as Luck Companies

24 FACILITIES

680 ASSOCIATES

3 generations of continuous
Luck family leadership

4 Core Values —
**Commitment, Integrity,
Leadership and Creativity**

INNOVATION

1st in the industry
to automate plants

**1st in the aggregate
industry** to take the operator
out of the loader with remote
control technology

SAFETY

**1.03 comparative incident
rate** as a result of our Value
Safety program

We hold ourselves and others
accountable to a **Zero tolerance**
for unsafe acts and conditions

ENVIRONMENTAL STEWARDSHIP

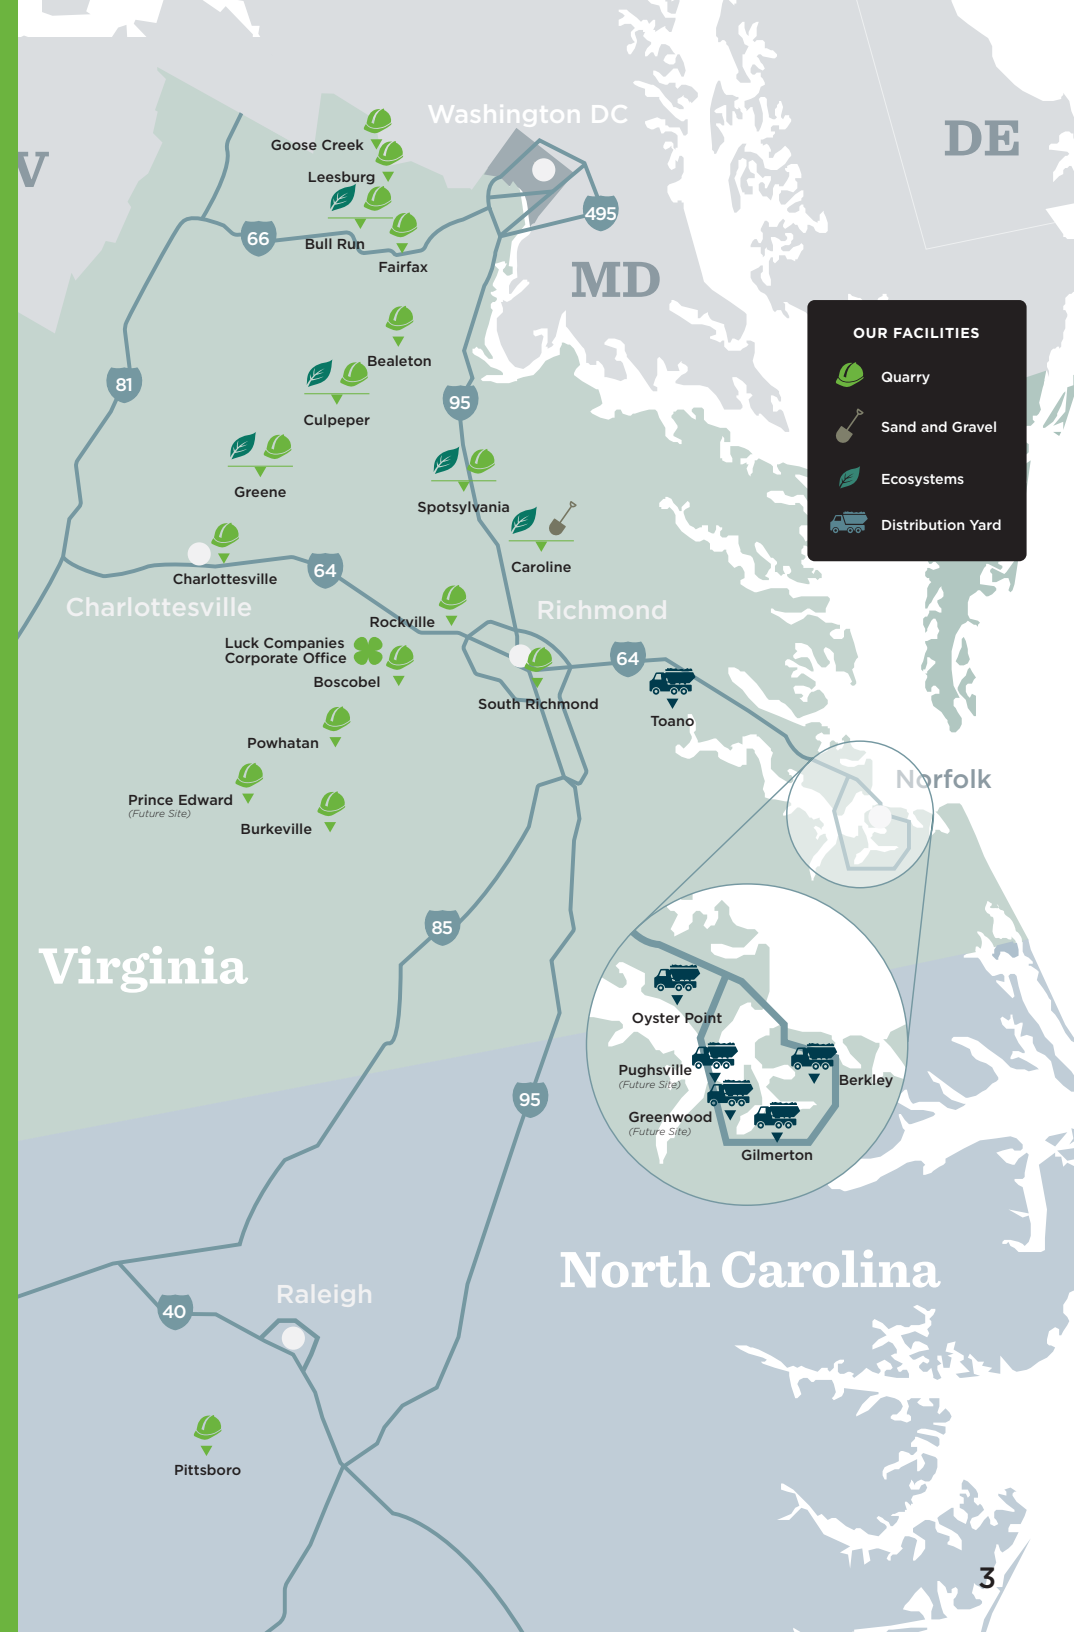

1 billion — the number of gallons of water the North Leesburg
Quarry will hold when it is turned into a reservoir in 2017 through
a “water banking” initiative, a partnership of Luck Companies and
Loudon County, Virginia

14 of our locations hold Exemplary Environmental
Enterprise recognitions from the Virginia Department
of Environmental Quality

COMMUNITY IMPACT

130 — the number of
organizations that received
charitable donations through
the Luck Companies Founda-
tion in 2016

Every single one
